Annette Wood

I don't wish to speak to my submission.

I support:

1. The public being granted the opportunity to be heard, on any decision made by elected representatives or any delegated authority that has consequences for public health and the environment.

2. That Environment Canterbury prioritise and resource an urgent plan change to the Canterbury Land and Water Regional Plan, that actively provides for public input when processing resource consents that have consequences for public health and the environment.
Until then, these consents should not be granted.

Thankyou.

Annette Wood
