I do / do not wish to speak to my submission (circle one)

I support:

1. The public being granted the opportunity to be heard, on any decision made by elected representatives or any delegated authority that has consequences for public health and the environment.

2. That Environment Canterbury prioritise and resource an urgent plan change to the Canterbury Land and Water Regional Plan, that actively provides for public input when processing resource consents that have consequences for public health and the environment. Until then, these consents should not be granted.

3. Other matters I would like Environment Canterbury to consider (continue overleaf if necessary):

- Climate Change - take it seriously & take action (not just lip service)
- Change of values: health of the environment & people before profit
- I came to NZ 30 years ago & loving the fact that you could swim in & often drink the water in rivers & lakes. It's so sad that so many waterways are now so polluted. Not so clean & green NZ any more. Let's clean up our shit.
