We do not support Option 1 and Option 2.

Both options don't address the diversity of Cantabrians.
They fail to recognize the contributions some are already making.
They fail to recognize that some Cantabrians are not able to access public transport, for instance, are unable to get fast broadband without incurring substantial costs, etc.

The rate take is increasing anyway because of the appreciating property values, so one must seriously question why Council is proposing a rates increase well in excess of 20% for this coming year.

We would like to speak to the panel and express our concerns to the proposed Long Term Plan.

Basil and Gertrud Berta Meyer
