Environment Canterbury Long Term Plan Te Pae Tawhiti 2021-31

I ~~do~~ **do not** wish to speak to my submission (circle one)

I support:

1. The public being granted the opportunity to be heard, on any decision made by elected representatives or any delegated authority that has consequences for public health and the environment.

2. That Environment Canterbury prioritise and resource an urgent plan change to the Canterbury Land and Water Regional Plan, that actively provides for public input when processing resource consents that have consequences for public health and the environment. Until then, these consents should not be granted.

3. Other matters I would like Environment Canterbury to consider (continue overleaf if necessary):

I am very concerned that water quality is still not at the forefront of ECA's public activity and that the population affected by poor water quality have little or no say in water management.

Our plants, animals and soils + aquifers are already damaged and endangered. Please act to heal our environment, not further damage it.
