Post Code: _____

Phone Number: _____

Email: _____

I **do** / **do not** wish to speak to my submission (circle one)

I support:

1. The public being granted the opportunity to be heard, on any decision made by elected representatives or any delegated authority that has consequences for public health and the environment.

2. That Environment Canterbury prioritise and resource an urgent plan change to the Canterbury Land and Water Regional Plan, that actively provides for public input when processing resource consents that have consequences for public health and the environment. Until then, these consents should not be granted.

3. Other matters I would like Environment Canterbury to consider (continue overleaf if necessary):

To regularly measure nitrate levels in rivers
throughout Canterbury.

Stop the increase of dairying throughout
Canterbury.

Begin research into effects of nitrates on
cancer to understand relationship between
nitrates and colorectal cancer.

Monitor regularly fresh water levels and
ecosystems.
