EMAIL

I WILL NOT SPEAK TO MY SUBMISSION/ DEMAND

I hereby express my full belief, proposal and demand that:

1. The public be granted full opportunity to be heard and served their requests when any decision is made by elected or delegated authority, that affects (in any way) the wellbeing and health of the public and the environment.
2. That Environment Canterbury prioritise and impliment an urgent change of plan to the Canterbury Land and Water Regional Plan, that includes full public input, say, obedience, inclusion and compliance when processing resource concents that affect (in any way) public health and well being and the environment. Until this can be done no concents may, should, shall or will reasonably be granted and will be considered going against the wishes of the public who will have the full right and impetus to take legal actions on individuals who have knowingly acted in opposition to assertions from the public for a need and demand for public input, say and compliance.
3. Ecan emediatey decist any use, endorsement , association and allowance of 1080 poison which is harmful to aspects of the health and wellbeing of the living creatures of New Zealand and that the human public be immediately and without hesitation given full right to decide on how best to deal with issues that have been used as the reason/excuse for the use of this dangerous, cruel and unenviromental poison.

Thanks for this opportunity to put in my demand / submission (submission not to be confused with the meaning of being submissive, but instead meaning the action of presenting a proposal, application, or other document for consideration or judgement.).
