Environment Canterbury Long Term Plan Te Pae Tawhiti 2021-31

Name of Submitter: TRUDI BISHOP

Address: _____

Post Code: _____

Phone Number: _____

Email: _____

☒ I do / ☐ do not wish to speak to my submission (circle one) ?

I support:

1. The public being granted the opportunity to be heard, on any decision made by elected representatives or any delegated authority that has consequences for public health and the environment.

2. That Environment Canterbury prioritise and resource an urgent plan change to the Canterbury Land and Water Regional Plan, that actively provides for public input when processing resource consents that have consequences for public health and the environment. Until then, these consents should not be granted.

3. Other matters I would like Environment Canterbury to consider (continue overleaf if necessary):

The broader climate crisis we are currently facing needs to be addressed also.

The process & transparency within the council & ECR for all decisions being made to ensure the current long term health of our citizens & species (humans to the smallest) are taken into account.

To consider the 15min city as a mitigation for city pollution, improvement of wellbeing of the city.

The long term plan needs to be sound doing the right thing now for the whole of the community, environment no matter how costly in the short term to prevent long term costs in economics, health, welfare of all who inhabit the country & the planet.

Supporting documents (Please attach any documents to support your submission)

To prevent treating our environment as a resource to be exploited for financial gain.

Thanks for the opportunity to provide feedback.

To halt any further consents for water bottling.

* we need further intensive nitrate testing of our rivers, private & public aquifers

* To look at reducing the levels of Nitrates allowed to reach to below the minimum WHO recommendations
