Submissions to the ECan Long Term Plan for 2021-2031 via Generation Zero [Quick Submit Form](#)

Form Summary	
Name	Rhys John
Email	
Suburb	
What option do you support?	<p>Option 1: Greatly increasing funding and projects that would allow ECan to continue statutory work, prior commitments and accelerate key initiatives (Council's preferred option)</p> <p>If selected other option:</p>
<p><b>Public Transport</b></p> <p>Environment Canterbury plans to transform the public transport network by:</p> <ul style="list-style-type: none"><li>• increasing the frequency on selected public transport routes</li><li>• moving to low and zero-emission vehicles</li><li>• introducing the national-wide integrated ticketing system in Canterbury</li><li>• continue operating Metro MyWay on-demand public transport system in Timaru and potentially expanding it to other areas of Canterbury if successful</li></ul>	<p>I support the Public Transport activities and initiatives proposed by Environment Canterbury</p>
<b>Urban Development</b>	I support the Urban Development activities and

Environment Canterbury plans to align land use and transport planning, champion increased density of urban areas and multi modal transport options to transform urban environments to enrich how people live and work. They will do this by:

- planning well for growth and ensuring well-functioning urban environments by giving effect to the National Policy Statement on Urban Development 2020 and Chapter 6 of the Regional Policy Statement
- convening the Canterbury Regional Transport Committee and preparing a Canterbury Regional Land Transport Plan that sets out the current state of the regional transport network, the challenges we face and the priorities for future investment
- contributing to the regeneration of Greater Christchurch as a strategic partner in Regeneration Plans, including monitoring and reporting on the Lyttleton Port Recovery Plan
- contributing to the work of the Greater Christchurch Partnership

Environment Canterbury plans to continue and expand programmes aimed at supporting the Canterbury region to minimise and adapt to:

- the negative impacts of climate change
- reduce and manage risks from flooding, natural hazards, contaminated land, hazardous substances, and waste
- monitor coastal water quality
- ensure communities are prepared for and resilient to natural hazard risk

#### **Air Quality**

Environment Canterbury plans to continue regulating and supporting initiatives to ensure air quality improves and does not impact on the wellbeing of communities by:

- providing assistance to low income households in Clean Air Zones with expiring burners to transition to cleaner forms of home heating
- provide air quality monitoring, investigation services
- provide up-to-date information, advice, tools and resources which enable the community to understand air quality issues and take action

I support the Air Quality activities and initiatives proposed by Environment Canterbury

**Do you also generally support  
the activities proposed in the  
following portfolios?**
