Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

The cost of doing nothing during the climate crisis is existentially higher than taking the step to reduce our emissions through cheaper fares. So it's a no brainer. Additionally, it will target those who need it the most.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

proper waste disposal, landfill is not a sustainable option. Care for our rivers, beaches and green space. Innovative transport ideas- do we really need to drive such large vehicles around?

Where did you hear about the consultation?
