Are you submitting on behalf of an organisation?

Yes, I'm submitting on behalf of an organisation

Which organisation are you submitting on behalf of?

A Rocha Christchurch

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

A Rocha is a Christian organisation representing churches across Christchurch. We are committed to reducing our carbon footprint as churches and as a city. We see that promoting bus use is a key part of this. We are also very aware of social inequality and believe in making public transport very accessible for young people and for with particular needs (i.e. Mobility Card holders) and on lower incomes (i.e. Community Service Card holders).

Any other comments on bus fares?

Many thanks to the ECan team for making this easy to have our say.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

We are very conscious of increasing risks of significant events from floods due to climate change. It is vital that ECan plans for a higher volume of floods in the future and is proactive about strategies to minimise effects of flooding, e.g. through reforestation and restoration of wetlands.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?

Word of mouth
