**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

25-39 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

We need to promote public transport and make it more accessible to reduce fossil fuel consumption in Canterbury.

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Ideally there would be money set aside for this in advance.

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Would you support a levy to accelerate action in response to climate change?**

Yes

---

**What current or future projects or activities would you like to see funded by such a levy?**

Projects and activities should focus on adaption. Bunds and seawalls for example will not protect us in the long run so we should focus on things that will help us to live with the effects such as managed retreat or reducing emissions in Canterbury through things such as increased public transport.
