Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Lorelee

Last name

Walker

Email address

Suburb

Templeton, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

option 2 gives more options to ALL people rather than offering free fares only to certain people.

Any other comments on bus fares?

this change would be welcome

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

rates increases just keep coming. Maybe charity fundraising?

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

are there not insurances for flooding etc? like the EQC fund?

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

there really needs to be 2 bridges to make traffic better/safer and to account for flooding(higher bridges?). This should be at the Rakaia river bridge and the Ashburton river bridge. I've checked the interactive map and cant see what changes effect Rakaia.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

reduce emissions and traffic on the road, reduce road speeds for safety also, the Rakaia stretch of road should be 50km through the main section, less trucks would be welcome also, a separate bridge for heavy vehicles? More council walks, water and air improvements

Where did you hear about the consultation?

Other (please specify) - metro bus site
