Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: $2 flat fare for adults and $1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

It is closest to free for all that I can choose. Non-community card adults should be encouraged to use the bus services. all other demographics are encouraged with an option, why not regular citizens.

Any other comments on bus fares?

The cost increase should be paid for by a reduction in the insane salaries of ecan directors, not by rates increases

---

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Reduce council and economic salaries

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Dairy farmers should pay the lot. They are responsible.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Any other comments on future funding for responding to climate change?

Polluters should be paying for repairing the damage. Socialising the cost isn't fair when corporations privatised the profit

Where did you hear about the consultation?

Word of mouth
