**Suburb**

Aranui, Christchurch

---

**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

25-39 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

---

**Tell us more about why you support the selected bus fare option.**

I have CSC and my husband hold mobility card, also we own the house therefore we pay rates. I think it's fair for all to have flat rate so everyone will benefit by it if they choose to use bus either CSC/Student/mobility card holders/rate payers. By giving completely free to targeted group will only increase the overall housing cost which will pass it onto renters and not much benefit in long run. Short term solution is always result but consequences and make suffer low income families.

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

No

---

**How else might we pay for our share of this work?**

Create events that will attract people from other regions to drop money in Chch, rather than relying on ratepayers.

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

CCC should think how they can increase their revenue. Hosting big events regularly will help to bring money from other regions/countries.

---

**Would you support a levy to accelerate action in response to climate change?**

Don't know

---

**Any other comments on future funding for responding to climate change?**

better recycling system. It's so bad that we can only recycle number 1,2,5 plastics while many other country can recycle so many other plastic items.

---

**Where did you hear about the consultation?**

Social media (Facebook, Instagram)
