No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

I don't support the plan but there isn't an option for that

Any other comments on bus fares?

This won't encourage people to use buses. All it will do is cost me more in rates. Not enough buses and not frequent enough. I live by the bus depo yet my closest stop is a 20 min walk to catch it.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Stop the bus and bike lanes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Better budgeting

Any other comments on flood protection in Ashburton?

Ashburton rate payers.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Better usage of current resources
