**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

25-39 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

I don't have a preference

---

**Tell us more about why you support the selected bus fare option.**

I dont support any subsidization of a bus system that is trash....

---

**Any other comments on bus fares?**

I support cheaper student, child, and pension fares. But otherwise the current weekly cap on the metro card is fine and fares are not the issue at all

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

No

---

**How else might we pay for our share of this work?**

How about stop wasting so much money on other stuff and stick to core council functions like this?

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Central government because as inefficient as they are, theyve still shown exponentially more care for the tax/rate payers money than the council ever has

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Would you support a levy to accelerate action in response to climate change?**

No

---

**Any other comments on future funding for responding to climate change?**

What does money do here? A) why do we care? what's the impact on canterbury? minimal... B) what are you going to do? all youre trying to do is mis-spend people's hard earned money with no positive outcome. But hey if you can show me how spending millions + of our money would make any real change go for it.... ill give you a hint, spending money on a shitty bus system isnt going to make any difference

**Where did you hear about the consultation?**
