Huntsbury, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Thinking about the effect on emissions, I feel this option will get more motor vehicle users onto public transport than option 1 which includes a lot of the groups already using public transport. I realise this is different to your modelling and I'm not fundamentally opposed to option 1 but feel option 2 would be more effective.

Any other comments on bus fares?

Ideally I would support working towards implementation of both option 1 & option 2, starting with option2.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

This should be funded from central government

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Projects that aim to reduce emissions, especially from the agricultural sector, are of primary importance. Methane reduction needs more emphasis than it is being given nationally.

Where did you hear about the consultation?
