No

---

**Which bus fare structure option would you like to see trialled?**

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

---

**Tell us more about why you support the selected bus fare option.**

The reason I went with option 2 is that I live in Diamond Harbour. So many people here drive rather than take the ferry, which for one car is approx. a 50km trip return just to get you to the edge of the city. This has a huge impact on climate change. A much larger portion of us over here would take the ferry more if it would a bit cheaper (it is very expensive for us to commute). If you go with option 1, we have to pay for this with the rates increase, but have no way of benefiting because we always have to get a 3 zone fare. I ask therefore that you go with option 2. If the majority of citizens go with option 1, I ask that you include zone 3 (the Dimond Harbour Ferry) within this option.
