No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Its a no brainer! People typically don't like to change and try new things without strong incentives or disincentives to do so. Many people who wouldn't consider using public transport now might do so if travel was free. For others who have no other alternative way to travel, the option of free travel would address one element of social inequality and lack of access.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Comprehensive cycle networks and cyclist education programmes for kids and adults. Development of recycling and waste infrastructure.

Where did you hear about the consultation?
