Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

To encourage the most bus uptake, particularly by those young enough to have never owned a car and to have less cars on the road for those who need to drive and minimize emissions. Plus it will give young people freedom to travel through the city without having to budget for it. Great idea. Would like to see this extended to free for all people and funding to come from fuel taxes.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Additional bike lanes in the city and Central suburbs. Free bike lessons for kids and free bikes for underprivileged kids. Local native planting projects so we can enjoy the forest and offset at the same

time. Provide education around the 20 minute city idea and ensure new developments are meeting these objectives. More spaces provided for electric car sharing all through the city and more sheltered free bike parks. More electric buses in the fleet and expanding the frequency and routes of the bus network. Free bus fares for all.
