Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Option 2 makes taking public transport a significantly more attractive option for the wider public, something that is important if we are to reduce congestion and emissions. Further incentivising groups that are already more likely to travel by public transport seems like a backward step as it won't increase public transport use in the wider population.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Additional investment in public transport, public charging locations, and green spaces.
