15– 24 years old

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a student who's passionate about the environment and already uses the bus this bus fare option gives me more money to spend in a time where living costs are rapidly rising, which is a problem for everyone, but particularly a problem for uni students who are having to pay these living costs in addition to education costs. Additionally, this incentivises young people to continue to take the bus around Christchurch, which would increase enthusiasm for any necessary improvements or reforms that may improve in the future, as well as generally be environmentally advantageous.

Would you support a levy to accelerate action in response to climate change?

Yes
