Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

Tell us more about why you support the selected bus fare option.

Public transport should serve the people in society who are the most disadvantaged, socioeconomically or otherwise. This fare structure would enable more of those people to access this service and decrease the cost burden passed on to those people. It will also encourage those who own vehicles to use them less and therefore decrease emissions and traffic.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Wealth tax. Higher rates and taxes on high value privately owned properties.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

More affordable and better connected public transport, for example rail and BRT options.

Where did you hear about the consultation?

Social media (Facebook, Instagram)
