Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Kim

Last name

Mccall

Email address

Suburb

Shirley, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

How would option 1 your preferred option increase bus use! That category already is the highest user of the bus. Do you not want more adults using it? I don't agree with any option that increases our rates. People cannot afford that and are sick of our rates bill piling up. Option 1 doesn't benefit me at all.

Any other comments on bus fares?

These have not been thought through well at all.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Fundraise. Ask the three waters. Stop increasing our rates you will send people into poverty then how will you get the money when rates bills aren't paid.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Through any means other than rates

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Stop charging people we are all going through covid where do you think we get this money from for your increases! It's not from payrise people are barely getting by with petrol and groceries hikes and ccc rates increases. Water charges coming where does it end. Money doesn't grow on trees.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Please stop adding everything to rates

Where did you hear about the consultation?
