Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Better for everyone, a consistent rate to pay would be more stable for everyone, and in my opinion; be easier for bus drivers to manage, a better incentive for people to use the bus as they don't have to worry about what age they are to start paying - which could be upwards of \$4 It still saves a lot on emissions and the consistent money from customers/ people would still help with repairs as we all know the buses do falter a lot.

Any other comments on bus fares?

\$2 is fair for adults

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Out of the companies pocket or a grant from the govt in an effort to stay low on emissions. if your fleet isn't operational, how are people supposed to stop driving.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

govt grants & tax

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

better hybrid bus options to save petrol.
