Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a tertiary student it is difficult to drive and find a car park at University and I would like to catch the bus on days when it is raining when I cannot bike safely. The cost of the bus is too high and I can't justify spending it if I can just drive and park further away from uni and walk. The bus would take me closer to uni campus too

Any other comments on bus fares?

Introduce the option to pay by payWave like the London buses

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

More direct buses, more street lights over cycle lanes, reduce the speed limit and introduce speed bumps in high traffic areas to help encourage cyclists, subsidise cycle safety equipment, more rest areas for cyclists with tyre pumps

Where did you hear about the consultation?

Word of mouth
