Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Charlotte

Last name

Peters

Email address

Suburb

Lyttelton, Lyttelton

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Increasing access to public transport would be good for the environment as well as reduce traffic. Reducing the cost of living especially for students attracts young people to the city which doesn't have the draw of "walkability" like eg. Wellington Dunedin does

Any other comments on bus fares?

Make Christchurch a walkable city :)

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

No Answer

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Build infrastructure that factors in seasonal flooding

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Extreme urgency on rehousing/redevelopment on higher land and redevelopment that is appropriate to the landscape eg. solar, hydro, windmills etc

Any other comments on future funding for responding to climate change?

More because I want my children to live :)

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Focus more on the urgency of climate change

Where did you hear about the consultation?
