Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Tara

Last name

Malama

Email address

Suburb

Temuka, Temuka

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I never use it neither does my family so I'd hate to be covering this in my rates

Any other comments on bus fares?

It's a point of travel for those who need it they should be charged accordingly as like us who have to put petrol into our own cars

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Out of what we already pay in our rates it's bloody day light robbery from you absolutely disgusting

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

We pay it already in our rates we pay huge taxes in Petrol how about ask for some of that money instead of it going to the north island all the time then you could use that money 24% increase is so wrong and disgusting especially when we just had a 14% increase

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

That's there area of concern not ours

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

What's changing with climate change? Please answer as I feel this is another excuse to slander money from us

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Yes we already pay enough in taxes and if this 3 waters goes ahead will our rates get cut since we already pay for water? As we will be having to install water meters

Where did you hear about the consultation?
