Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Victoria

Last name

Liptrot

Email address

Suburb

Christchurch Central, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

The idea is to get more people using the bus...under 25's, students, and elderly are already the ones using them.....so opening up to cheaper fares for families and the middle workforce would be a better idea.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Needs to be funds for better protection, then recovery will be less costly. But an annual levy on rates, like we pay eqc in all our insurance.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Proper recycling plants in New Zealand. The ability to recycle all things that it's possible to, like soft plastics, bottle tops etc.....and for stations to be close and available for people to drop off. Higher taxes on businesses creating the most greenhouse gases. Tax reductions on businesses that are creating the least greenhouse gases. More community projects for getting the kids involved in composting, worm farms, growing veggies. Dedicating some of the redzone for allotments. Having more initiatives for fixing appliances rather than dumping them.

Where did you hear about the consultation?
