Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I would support an option that included lower fares for people with Total Mobility cards, as transport is likely to be a higher cost for them. I would vote for Option 2 if the \$1.20 was also for Total Mobility/Community Services card holders.

Any other comments on bus fares?

Please always keep cash as an option for paying when boarding the bus- my son has an intellectual disability and the best way to ensure he can always pay his fare is to just make sure he always has \$20 in his wallet- then he just gives that to the driver when his card runs out of money! (He doesn't have the capacity to notice when the card tells him his balance is low.)

Is borrowing and repaying through general rates the right approach for this regionally significant event?
