Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I am not a heavy bus user and probably will still not be. But we need to reduce congestion and reduce km travelled by cars, to make our city more attractive and accessible. I believe it is important to encourage the younger generation to take up utilising public transport, because as transport modes change, public transport will offer so much benefit for the future. Even when I do take the bus with my family, it will make it a more cost viable option if our kids are free. I am certainly happy to subsidise my portion of the rates for this option.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference
