No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

More cars off the road = less busy traffic and less pollution. Also will be incredibly beneficial for highschool and tertiary students, and low-income families

Any other comments on bus fares?

Ideally buses would be free to help students, low-income families and well everyone... Also if I was a tourist I'd love to visit a town with free buses. More incentive to travel around town spending money in stores or restaurants if you're not having to spend it on transport

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes
