Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Carolyn

Last name

Marks

Email address

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I feel is buses were changed to smaller vehicles and went more frequently then young people might see it as cool and a good service for them. This means less parent driving them in cars

Any other comments on bus fares?

See above comment for question 10

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Maybe insurance or creation of a fighting fund that gets added to each year - would have to be budgeted each year for. Maybe central govt could match dollar for dollar in fighting fund - worth asking them when showing we prepared to do our bit

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

I pay rates for my bach at Lake Clearwater to ADC and the only services we receive for that is gravel road grading and communal rubbish bins, so would be loathe for them to go up much more as very high already.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Suggest flyers to go out with rates giving list of things citizens can do for climate change but keep flyer simple and not too wordy or else people will not read .

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

The water quality of Ashburton Lakes is dear to my heart and at last Ecan are working on this issue so keep up the good work- and do more if you can please.

Where did you hear about the consultation?

Other (please specify) - letterbox drop
