Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

**Tell us more about why you support the selected bus fare option.**

The probable decrease in emissions looks better than option 2. According to the council's predictions, it seems to be more sustainable in terms of revenue and the increase of the number of bus users will keep this going while still making it more accessible for people who may be on a lower income bracket/in need of more financial support.
