Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

This bus fare option would greatly benefit myself and my family, as well as those most in need within our communities. I believe that it would encourage more people to take public transport and work to reduce the carbon emissions and congestions on our roads. I believe that public transport should be more accessible and this is a step in the right direction.

Any other comments on bus fares?

Bus cards should be cheaper or free so that more people will be inclined to get one.
