First name

Belinda

Last name

Skjellerup

Email address

Suburb

Sydenham, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

It would mean that a greater number of people would have access to cheaper fares. Rather than a limited amount of people as in option 1 and 3. All of Christchurch would be able to enjoy the benefit of cheaper fares. Many more people and more returns for the Bus company also.

Any other comments on bus fares?

Terribly expensive currently, so fantastic that this is finally being looked at. What about the old train system being resurrected too?

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Better public transport. Trains! Bring the trains back to the city and re-open the old public system that went to Littleton, Rangiora etc... Introduce shared electric cars, apparently Amsterdam has them?

Any other comments on future funding for responding to climate change?

More trees on streets. Chch gets so hot and there is hardly any trees lining the streets.
