Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a tertiary student, it is clear that this option will heavily impact me and my peers, and I believe it will result in much greater usage of the system. fare prices are currently a barrier for me and other students, as we often live on tight budgets but still have a need to get around. increasing public transport utilisation should be a primary goal of the council as it will have many positive effects on the city, such as reduced congestion, lower emissions (especially with the new electric fleet), and increased commercial shopping in the CBD.

Any other comments on bus fares?

i am in support of universal free public transport for all.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
