No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because as a student it costs me as much money to bus as it would to park a car in the cheapest parking lot for a day which is frankly ridiculous considering I rely on a student allowance. And as someone who also holds a community services card it would be amazing to have a lower price or even for free.

Any other comments on bus fares?

If anything a tertiary price for the buses

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Tree planting

Other (please specify) - Bus exchange
