**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

40-64 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

It supports a greater range of people who have limited financial means or who have no means of transport except for the PT system.

---

**Any other comments on bus fares?**

No Answer

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Money shouldn't be spent on flood protection works that have been constructed by farmers to enable them to steal riverbed land.

---

**Any other comments on Environment Canterbury's draft Annual Plan or other matters?**

The public transport fares option looks to be a quick easy win for councillors' re-election campaigns whilst the massive deficiencies in the Christchurch public transport system and the resulting low patronage are not been addressed because it is too hard.
