No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As someone with low vision and therefore can never drive public transport is my main form of transport. currently the only discount I get is from taxis which are sometimes more convenient but if busses were also discounted I might use them more even when it's less convenient. I think opinion 1 will help make buses more accessible and people will use cars less

Is borrowing and repaying through general rates the right approach for this regionally significant event?

I don't have a preference
