Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

I don't have a preference

Tell us more about why you support the selected bus fare option.

Public transport does not need to be subsidised, it's already very cheap. This is an unnecessary waste of our money.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

There's not much you can do other can have some amount of self insurance

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

I think everyone should contribute, even if we don't live near the river we all use the services of Ashburton

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Absolutely do not support another useless climate tax. We are already pounded with taxes from central govt so James Shaw can fly around the world and talk about the environment yet do nothing useful. I can't see any tax going to ECAN making an measurable effect on the climate, just taking more money out of our pockets. We are a small fish in the ocean. All we can do here is educate people about sustainable living and business. A tax will not change the weather.
