Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

It has been trialed in other cities and has proven successful. It is also more convenient for passengers and they don't have to worry about having the correct amount of money on their metrocard.

Any other comments on bus fares?

The bus network should go cashless. This will be safer for drivers and will be faster for passengers as we won't have to wait for people to count their cash when they get on the bus.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

The bus network should go cashless and the outdated metrocard should be replaced by bee card using a tag on/off system.
