Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

I think the bus service is terrible in Christchurch and with the pandemic it's not a safe mode of transport. I don't feel like I should be paying extra rates when it is of no benefit to me.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Stop making changes to roads that you then need to undo and pay for again. The amount of wasted tax payer money is ridiculous. If you were a publicly listed company heads would roll over some of the idiotic decisions made by your staff.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Better planning. Charge a fee on new developments. Charge water bottling plants. Get the mayor to donate some of the "lobbying" money she receives.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Plan better.
