Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

John

Last name

Delany

Email address

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: $2 flat fare for adults and $1.20 for children across bus zones 1, 2 and 3

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Only if public money is spent only on protection of public amenities, not flood protection of private properties such as farms near riverbeds.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Events on this scale will only get worse, not better. See comment above. Farming practices need to take this into account when determining how best to use the land, and not expect ratepayers to pay to protect inappropriately used land from climate-change induced events.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

As for (14)

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

Need more information about how the levy would be used. egs 1.See comment in (14); 2.Do not support funding related to saving properties from coastal erosion/rising sea levels as any such remediation can only be a short term fix
