No, I'm submitting as an individual

Which age category are you in?

0–14 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a frequent bus user, I'd like to be able to get around on public transport without having to top up so frequently. Free fares would also allow people to board faster.

Any other comments on bus fares?

While you're changing the bus fares, install a tag on/off system like we see in various places around the country. This lessens confusion when it comes to zones and will allow people to board faster as to stop hassling with zones.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

More clean energy sources, more projects and environmental groups.

Where did you hear about the consultation?
