Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I am in support of this initiative as it will allow young people and students to appreciate and use public transportation. This will make public transportation a more desirable option and discourage the use of private vehicles to access campuses and work sites. Younger people earn less money and may feel that owning a private vehicle is a necessity to live in our city.

Any other comments on bus fares?

Zone 2 and higher fares are far too high, and for the inconvenience of waiting for a bus and walking to and from bus stops, the fares are absolutely not worth the amount saved in fuel for a private vehicle.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Unsure

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Rates

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

Nothing to add
