How else might we pay for our share of this work? Don't know - use spend marked for other things. Which option for distribution of rates in Ashburton River rating district do you support? I don't have a preference Would you support a levy to accelerate action in response to climate change?		
Tell us more about why you support the selected bus fare option. Because it creates more equity for the largest number of people - i.e. this option would benefit everyone, not just particular groups. Any other comments on bus fares? Just that option 2 would also encourage more individuals to use the bus as main form of transport. Is borrowing and repaying through general rates the right approach for this regionally significant event? No How else might we pay for our share of this work?
