Ecan's issue they must pay in full

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Ecan's issue they must pay in full

---

**Any other comments on flood protection in Ashburton?**

Ecan has made this an issue for themselves due to charging contractors to take shingle per tonne this should be free to everyone including farmers and the public. Ecan has to answer for all damages from floods and work to get the rivers back to where they were before they brought the stupid policies in, no rates not taken since the floods should cover this, as we pay Ecan years leading up to this to do their job. Ecan must be held accountable, all roading, bridges, farm damages (mental and physical) must be paid in full from Ecan.
