Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Breanna

Last name

Travaille

Email address

Suburb

Burnside, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Well bus drivers still need pay and fuel ain't getting no cheaper.

Any other comments on bus fares?

Option 2 would be better for everyone!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Set up a go Fundme account.. post on all the social media platforms about this proposed plan. Heck get this out there on RNZ.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Borrow money from reserve bank at least part of it. Get in touch with city leaders and local residents urge them get involved in the construction of state highways, bridges, and power. :)

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

Before it floods in Ashburton maybe try to survey the areas that are impacted the worst come up with a plan add more sand, dirt, rocks build the ground up a little bit stronger. So that when it rains it not impactful towards the residents.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

I would like to see at malls plastic bottle collector. Give people incentive to recycle since so many people buy plastic bottles why not pay them to turn them into the correct rubbish bin with a reward like maybe 40c off groceries, fuel or entertainment. Turn in X amount of plastic bottle get rewarded!

Any other comments on future funding for responding to climate change?

Nope none.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

None
