No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support this option because with fuel prices getting so high and being a full time student who has to drive to course and not being able to be on well fare while studying it would make transport so much easier. I'm also a full time mum and bus is my only transport. And having to go out with a 6month old with out relying on family this would be so much better

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know
